

EXPANDED POLYSTYRENE SOLUTIONS

# STYRO EPS FOR PONTOONS

STYRO EPS is widely used as a core material to manufacture buoys, pontoons and floats as it is light in weight and has excellent buoyancy & resilience properties. Generally, there is no standard design, shape or pattern for buoys, pontoons and floats, rather, it is purely customized based on the nature of the application. STYRO has the know-how to manufacture the buoys with a variety of core materials, Polyurea Coating, extra fittings, handling accessories and finishing systems.

## Features

-  Salt Water Resistant
-  Buoyant & Resilient
-  Flexible in Designs & Sizes
-  Quick Assembly
-  Cost Effective
-  Light-weight

Recommended Products: **STYRO 290**
