# STYRO Beads for Bean Bags & Stuffed Toys

STYRO Beads are small, lightweight, pearl-shaped and white coloured beads that are commonly used in packaging and filling applications. Typically ranging in diameter from 3 to 12mm, they have an apparent density of 8-15 Kg/m<sup>3</sup>.

STYRO beads are a popular choice for filling bean bags, pouffes, pillows and stuffed toys. These small, lightweight beads provide a comfortable and supportive cushioning effect, allowing bean bags to mould to the shape of the body and providing a soft and squishy feel for stuffed toys. Additionally, STYRO beads are durable and long-lasting, maintaining their shape and fluffiness over time.

### ✓ **Comfort:**

STYRO Beads provide a soft and supportive cushioning effect, offering a comfortable seating or cuddling experience. The beads conform to the body's shape, providing customized comfort and relieving pressure points.

### ✓ **Lightweight:**

STYRO Beads are lightweight, making it easy to move and reposition bean bags or toys as desired. This allows for convenient portability and flexibility in arranging the seating or play area.

### ✓ **Durable:**

STYRO Beads are highly durable and long-lasting. They maintain their shape and fluffiness over time, ensuring continued comfort and support for extended periods of use.

### ✓ **Versatility:**

STYRO Beads can be easily adjusted and molded to fit various shapes and sizes. They adapt well to the contours of bean bags and stuffed toys, enhancing their overall aesthetics and comfort.

### ✓ **Hygienic:**

STYRO Beads are non-allergenic and resistant to dust mites and mildew. They do not promote the growth of bacteria or mold, making them a hygienic choice for filling bean bags and stuffed toys.
