

EXPANDED POLYSTYRENE SOLUTIONS

STYRO Packing Chips

STYRO packing chips are an excellent choice for protecting fragile objects, especially when shipping gifts or parcels via air or sea. These chips create a high-resistance pad that surrounds the object, shielding it from any jarring movements, shocks or temperature fluctuations. Additionally, the chips are incredibly lightweight, take up minimal space and can be packed into boxes of various sizes and shapes.

STYRO offers a wide selection of packing chips to suit the unique preferences of our customers.

STYRO Chips Standard Sizes:

- 10 x 10 x 10 mm
- 15 x 15 x 15 mm
- 20 x 20 x 20 mm
- 25 x 25 x 25 mm

* Any special sizes can be supplied

Watch the Video

✓ Protection:

STYRO Chips provides excellent protection for fragile objects, especially during shipping or transportation. The chips form a high-resistance pad that envelops the object, protecting it from shocks, sudden movements and sudden temperature changes.

✓ Lightweight:

They are very lightweight, which helps to reduce the overall weight of the package. This can result in lower shipping costs and reduced environmental impact.

✓ Versatile:

They can be used for packing and packaging objects of all sizes and shapes. They can be easily packed into boxes of any size, making them a versatile option for a wide range of applications.

✓ Space Saving:

STYRO Chips occupy minimal space and can be compressed to reduce volume. This makes them ideal for storage and transportation as they take up less space than other types of packing materials.

✓ Cost Effective:

STYRO Chips are an affordable option for packing and packaging, which makes them a cost-effective choice for businesses and individuals looking to save money on shipping and transportation.
