

EXPANDED POLYSTYRENE SOLUTIONS

STYRO EIFS System ED (Exterior Decoration)

The STYRO Decoration Finishing System (EDFS) is a highly efficient and convenient solution for building decoration, offering a lightweight and easy-to-install option for on-site use. STYRO provides tailor-made lightweight facade solutions for all interfaces, ensuring optimal aesthetic factors that seamlessly integrate with the essential elements of any building. The EDFS is designed to meet the specific needs of each project, while ensuring a high-quality finish and ease of installation.

Watch the Video

✓ **Lightweight:**

The system uses STYRO Graypor which is a lightweight material, making it easy to handle and install.

✓ **Easy to Apply:**

The system is designed to be easy to apply, reducing installation time and costs.

✓ **CFC & HCFC Free:**

STYRO products do not contain Chlorofluorocarbons (CFC) or Hydrochlorofluorocarbon (HCFC), which are harmful to the environment.

✓ **Fire Retardant:**

STYRO Graypor is fire retardant, providing a high level of fire safety.

✓ **High Impact Resistance:**

The system has high impact resistance, making it durable and long-lasting.

✓ **Good Dimensional Stability:**

It has good dimensional stability, which means the system can maintain its shape and size over time.

✓ **Unlimited Shapes and Designs:**

STYRO products can be molded into unlimited shapes and designs, giving architects and designers the freedom to create unique and innovative designs.
