

EXPANDED POLYSTYRENE SOLUTIONS

STYRO Sheets for Packing and Packaging

STYRO Sheets are commonly used for packaging and protecting fragile items during transportation, storage, or shipping. Styro sheets provide excellent cushioning and shock absorption, which helps to prevent damage to the packaged goods. They are also moisture-resistant and can be easily cut, shaped and moulded to fit the specific packaging needs. Additionally, STYRO sheets are eco-friendly as they can be recycled and reused. They are available in various sizes and thicknesses, making them suitable for different types of items and packaging requirements.

STYRO sheets can be used for a variety of applications in packing and packaging, such as:

- Cushioning material for fragile items like glassware, electronics and delicate equipment during transport.
- Insulation material to protect temperature-sensitive items like food and pharmaceuticals.
- Separation material between layers of products to prevent scratching or damage.
- Void-filling material to fill empty spaces in boxes and prevent items from shifting during shipping.
- Packaging inserts for custom-shaped products to keep them secure and protected during transportation.

✓ Lightweight:

STYRO sheets are lightweight, making them easy to handle and transport.

✓ Shock Resistance:

They have excellent shock absorption properties, making them ideal for packing fragile and delicate items.

✓ Thermal Insulation:

STYRO sheets provide thermal insulation, helping to protect items from temperature changes.

✓ Moisture Resistance:

They are moisture-resistant, protecting items from damage due to humidity or dampness.

✓ Cost Effective:

STYRO sheets are a cost effective solution for packaging and can save on shipping costs due to their light weight.

✓ Versatile:

STYRO sheets can be cut to any shape or size, making them suitable for packing a variety of items.

✓ Recyclable:

STYRO sheets can be recycled, making them an environment friendly option.
