

EXPANDED POLYSTYRENE SOLUTIONS

# STYRO Boxes

STYRO Boxes are made from special grade Expanded Polystyrene (EPS) material that is food-friendly, CFC-free, re-usable and 100% recyclable. STYRO boxes are widely used for keeping fresh and frozen foods, such as meat, fish and vegetables, well-preserved and cool, regardless of the external environment. They are also ideal for packing ice cream, chocolates, cakes and other confectionary items that require protection from extreme temperatures.

In addition, they are easily stackable and lightweight, making them ideal for mass shipments and storage for restaurants, hotels and other F&B commercial outlets.

## List of standard size STYRO Boxes available with us

Capacity (KG)	External Size (LWH in cm)	Internal Size (LWH in cm)

### ✓ Freshness:

STYRO Boxes are excellent at preserving the freshness of food items and protecting them from spoilage.

### ✓ Protection:

STYRO Boxes offer reliable protection for delicate items, such as glassware, electronic equipment and medical supplies, during shipping and transport.

### ✓ Versatility:

STYRO Boxes are suitable for various applications, including fresh and frozen food storage and transportation, ice and dry ice packing and confectionery items.

### ✓ Lightweight:

STYRO Boxes are light in weight, which makes them easy to handle and reduces shipping costs.

### ✓ Stackable:

STYRO Boxes are designed to be easily stackable, which saves space during storage and transport.

### ✓ Leak-Proof and Shock-Proof:

STYRO Boxes are leak-proof and shock-proof, which ensures that the contents remain safe and secure during shipping.
